

**AUTOMATIC
TRANSMISSION PURIFIER**

Adco Transmission Flush add extra performance and cleaning effect for the automatic transmissions. Its potent, detergent- based formula cleans sludge and deposit build-up.

In transmissions, deposits can form on clutch plates, causing hesitation and erratic shifting. Ultimately clutch glazing can set in, reducing the life of the transmission. Deposits in engines and transmissions can accelerate wear, causing power loss and increased fuel consumption.

PROPERTIES:

- Prepares transmissions for new oil.
- Removes deposits and sludge for improved efficiency, fuel economy.
- High Detergent-power with environmentally friendly component.
- Compatible with seals and gaskets.
- One-treatment results.
- Easily disposed of with waste oil.
- Removes operationally caused contamination and deposits
- Protects from corrosion and early wear
- Ensures soft shifting with direct response
- For smooth engine running

- Approx. 15 minutes
- Before every exchanging of the transmission fluid
- 300 ml for application

Automatic transmission medicine was developed based on the highest requirements and recommendations to enhance and protect vehicles transmission technology. Excellent wear protection and favourable friction behavior. Provides extremely good lubrication properties and outstanding corrosion protection. Prevents frothing.

PROPERTIES:

- Removes operationally caused contamination and deposits.
- Protects from corrosion and early wear.
- Ensures soft shifting with direct response.
- For smooth engine running.

**AUTOMATIC
TRANSMISSION PROTECTOR**

- Approx. 30 minutes
- With every change

POWER STEERING FLUID

Power steering fluid synthetic formula crafted to provide long, trouble-free service in most domestic and foreign passenger cars and light trucks, delivers excellent lubricity and friction-reduction properties. As a result, power steering pump components and hoses receive maximum protection against wear and stress for long life and reliable performance.

PROPERTIES:

- For use with all power steering fluid exchange machines or services
- For use with all power steering pumps and PSF fluid types .
- Cleans away harmful sludge, varnish, gum and deposits
- Prepares power steering pump for new fluid

- Approx. 10 minutes
- On demand
- 300 ml for up to 12 L

Power steering fluid advanced formula designed to provide long, trouble-free service in most domestic and foreign passenger cars and light trucks, delivers excellent lubricity and friction-reduction properties. As a result, power steering pump components and hoses receive maximum protection against wear and stress for long life and reliable performance.

PROPERTIES:

- For use with all power steering fluid exchange machines or services
- For use with all power steering pumps and PSF fluid types
- Cleans away harmful sludge, varnish, gum and deposits
- Prepares power steering pump for new fluid

- Approx. 10 minutes
- On demand
- 300 ml for up to 12 L
